

A close-up photograph of two large, rectangular blocks of marble. The block in the foreground is white with prominent, dark grey and black veins running diagonally across its surface. The block behind it is a lighter, more uniform color with smaller, darker speckles. Both blocks are resting on a light-colored, smooth floor. The lighting is soft and even, highlighting the natural texture and patterns of the stone.

ORIJINS

EXPERIENCE IS AT THE HEART OF OUR STRATEGY.

Orijins was founded as a destination for refined specialty coffee experiences. Our mission is to promote the art and craft of fine coffee, and provide a genuine high-end atmosphere with impact and creative expression. The drive to elevate and innovate directs our ambition to be the region's foremost specialty coffee house.

It all starts with sourcing the absolute best coffees from around the world. Coffee producing countries are referred to as origins in the industry, and our namesake pays tribute to these exceptional producers. Our specialist team goes to great lengths to procure rare selections that make up our unique menu offering.

A fine cup of coffee is synonymous with fine art, and this realization can be experienced in full swing at our locations. Careful orchestration has led to our specially designed interior spaces that are imbued with a minimalistic warm and aesthetic tone that is as unique as our coffee.

		7oz	27
STILL WATER	COLD 32	SPARKLING WATER	16

The demand for quality never ceases, and this is especially true when it comes to specialty coffee. Our region is known as the birthplace of fine coffee, and it carries a rich heritage and culture of coffee. To that end, we have employed exceptional standards for how our coffees score and taste.

Our signature approach takes into consideration every factor to ensure our customers enjoy only the finest. We carry out extensive research to identify, improve, select, and import the best coffees from the most interesting of origins. We will always stand behind the quality offered and spare no effort in ensuring absolute customer satisfaction.

Every coffee we select is based on a complex set of cup profiles. We believe transparency and clear communication is the only way to achieve consistency in quality. Our operations are founded on long-term relationships with our producers and our specialty coffee suppliers, which in return gives us privileged access to unique selections.

OUR SPACE

There are several key ingredients that must be carefully blended to create a successful combination of balance and charm within a given space. One of these ingredients is attention-to-detail, an important element of both art and coffee which we employed at our coffee houses. When applied correctly it becomes the secret key that unlocks a treat for the senses.

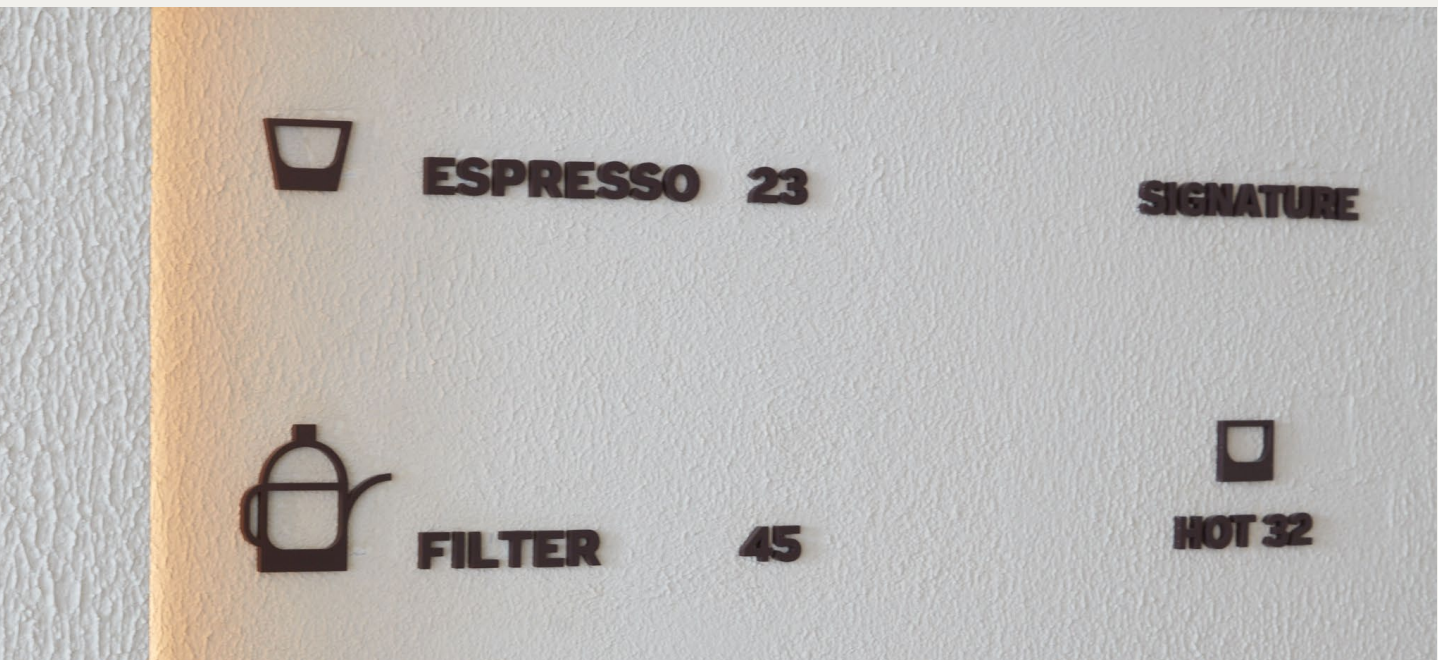

Textures, lines, and curves blend in this setting in a way that communicates our refined visual story, with every element having its own purpose and meaning.

Orijins embodies natural elements and its beautiful imperfections. We place great value in every detail and create balance with curves and textures that result in a remarkable atmosphere which is a tribute to our coffee selection. From beans to interiors, everything at Orijins has been fine-tuned to provide a premium experience.

OUR MENU

ORIJINS

One might think that the more choices a customer has, the more likely they are to find what they are looking for, and the more chances for a better experience. This is not the case with the new wave of highly educated consumers who know exactly what they want.

We have aligned our offerings to keep in line with this newly refined palate. Our specialist team of professional-level connoisseurs and master baristas are experts in their craft who not only consistently predict the expectations of the high-end coffee seeker but also frequently set the next trend.

Our specialty menu is more than just a communication tool. It represents a fusion of all our combined expertise that runs through our entire supply chain beginning from the farm all the way to the coffee bar. It is at this point that the customer journey begins with a refined choice of Espresso offerings, Filter, Drip, Milk Based that have been meticulously designed. There is more to it than what meets the eye, and our guests are always encouraged to interact with our baristas for the ultimate specialty experience.
